

Michael Muro Garden Design

Questionnaire

This questionnaire enables me to identify key factors that will help me to create a design concept that is a reflection of your vision and the practical considerations of the site. This input provides a platform to discuss your project in more depth during the early stages of the design process. Please take a moment to provide answers below or simply describe your project in the remarks section.

What are the top 5 uses of your garden space(s)?

How long have you owned your home and how long plan to stay?

Describe the general look you want.

How much maintenance are you willing to do or hire?

Which door do you use? Guests use?

How often do you entertain?

Do you need an outside area for dog?

Any plans for a hot tub or spa?

Desire a covered outdoor area?

Desire a vegetable garden, fruit trees, berries?

Annuals, perennials?

Present amount of shrubs, beds – add? reduce?

Favorite or hated colors?

Greenhouse or potting shed?

Storage shed or compost bin?

Current parking – where? sufficient?

Birds, feeder?

Any current problems or issues?

Views to preserve?

Any difficulties with existing steps, walks?

General soil condition?

Areas of standing water?

Areas of poor drainage or standing water?

General climate, wind direction, force?

Sun areas – day, evening?

Sewers, water lines, utilities?

Plot plan of lot?
